

# Something Old, Something New...

## Your Jumper needs you!

**This competition is about being creative and having fun! Everyone has an old jumper that is hidden at the back of the cupboard, that jumper you (or someone else!) boiled by mistake and is now several sizes too small or a treasured child's cardigan that you just cannot throw away. Pull them out and upcycle them into something that can be treasured!**

### What is Upcycling?

- This is a great way to use existing materials that you already own without having the expense of purchasing new materials.
- To create a new piece or product from existing materials that could have a possible functional element to it or be purely a fun crafting object.
- To re-use a treasured item of clothing that could be on display to evoke fond memories of a past time and until upcycled would have been left, unnoticed in a drawer.
- To stitch, manipulate, dye, burn or encase the fabric until its original form is unrecognisable.
- Your new object could be ANYTHING! A necklace, a picture, a 3D object or a pair of gloves – your design, your choice!
